

GOLDEN KITCHEN

ABOUT US :

We emerge as a solution provider for HORECA bespoke and tailored to customer requirement . With a immense passion for creating a difference GKGT came into existence with a Humble start and with a extensive range encompasses everything from tableware, kitchenware, buffet ware, to bar and coffee accessories, in-room amenities.

We want to have our clients to have unforgettable experience in our service, product & price which is the core of the business.

Why Work with us:

Customer satisfaction is the core of our corporate policy and providing our esteemed customers the best value for their money is our commitment.

SPAL
PORCELANAS

SPAL's History is consistently based on brand's values. Since its inception, SPAL promotes design, innovation and quality as part of its corporate culture.

Being the first ceramics company to launch a design competition (in 1970), SPAL has, since then, maintained partnerships with schools of design and materials engineering. Its in-house design department - SPAL Studio – fosters not only creativity but also research and development (R&D), which have been leading to constant innovation.

The company was also responsible for marketing collections by reputed international designers, such as Stefanie Hering, David Queensberry, Martin Hunt, the Danish studio Seidenfaden Design Copenhagen, among others.

True to the vision of creating items with a striking design that add value to the daily lives of consumers, over the years SPAL has won several awards, such as the prestigious Design Plus Award.

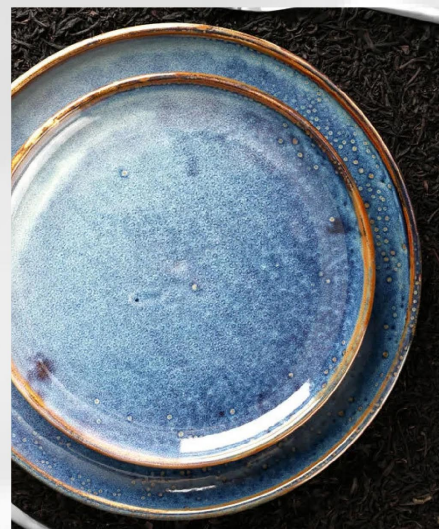

DXC[®] CHINA

Everything we make is designed with one thing in mind: that porcelain ware should be created for to make much relaxed ambience for busy dining environments. Offers unlimited options with many colors variations and too many shapes. Perfectly ts for di erent food presentations with mixing.

Porcelain ware from DXC is an organic range reminiscent of artisanal ceramic with the benefit of commercial quality and the only range of its kind that comes with a 5 year edge chip warranty.

A key feature to the DXC Porcelain range is that in the production process, each piece reacts differently and the colours and patterns have an individual variance which adds to the bespoke look.

CHINAWARE

PICARD & WIELPÜTZ

S O L I N G E N

From a down-to-earth manufacturer to a renowned cutlery factory with the latest technology - this is how the 86-year history of Picard & Wielpütz could be summed up in a nutshell. However, despite all the changes over time, two things have remained the same: the high quality standards and the trusting cooperation with partners from the catering and specialist wholesale trade all over the world.

FLATWARE

NEVA®

POSATERIA CREATIVA

MADE IN ITALY

Ever since the outset, the Linee Design philosophy emphasised the importance of values such as solidity, design and the ability to deliver to its customers products of a high quality standard at accessible prices. Thanks to these traits, Linee Design soon emerged in the cutlery market and attracted the attention of leading homeware retailers, who decided to benefit from the company's experience for producing their own composite cutlery items.

A decidedly innovative and creative spirit, coupled with a desire to unleash its distinctive character, led the company to create the first Neva Posateria Creativa collection in 2010. The embodiment of the family's flair, the collection was also the first tangible example of a distinctive style which still defines each item the company produces. The company views creativity as the possibility for expression and customisation, two aspects which emerge vigorously in the decorations applied to the products. These lie at the core of the Neva Posateria Creativa experience, and are the distinctive trait setting the brand apart from any other company operating in the sector. The continuously evolving nature of its creative process brings Neva Posateria Creativa to collaborate with leading and renowned designers of the decorative and furnishing sectors, enabling the company to grasp developing trends and moods.

Each Neva Posateria Creativa cutlery item is designed and manufactured entirely in Italy, in Lumezzane (Brescia), and aptly reflects the typical inventiveness and quality of Italian craftsmanship. The products are distributed to various market segments from small to large-scale retailers, at competitive prices and without any compromises on the product's durability.

Neva Posateria Creativa exports its products worldwide in order to customise each kitchen or table with color, passion and character, and to help customers express their own style.

FLATWARE

Coltellerie Berti, founded by David Berti, is a company that has been producing knives through a totally artisanal process since 1895.

For four consecutive generations-first with David, then with Severino, David's son, then with Alvaro, Severino's son, and now with Andrea, Alvaro's son-we have continued to produce knives in the same place, in Italy, scrupulously following the Tradition of the Berti Artisan Method, handed down from generation to generation.

Our story begins in 1971, when José Ramón Bernardo founded the company Bernardo Representaciones in Asturias. Bernardo immediately saw the need to develop a fine crystal cider glass, a product that was in high demand in the north of Spain. This is how SELLA was born, the authentic fine cider glass that, today, continues to be a benchmark of quality in the sector.

With the arrival of the 21st century, we are strengthening our commitment to high-resistance fine glass. Thanks to the incorporation of the second generation of the family, with the siblings Monica, Nuria and Pedro Bernardo, we are consolidating our position in the sector.

Growth is clear during this period: we have incorporated new product lines and expanded our sales network, opening new areas and gaining customers throughout Spain and in international markets.

As this expansion has progressed, the facilities have been expanded to the current 7,000 m2. This allows us to have a high level of stock and offer a fast and efficient service to our customers.

Our vision is to be a benchmark in the development of quality projects for our clients. This process covers everything from the design, development and search for products worldwide, to manufacturing and the provision of customization services.

Ultimately, it is about standing out by offering tailor-made solutions, with a fast and efficient service, also adapted to the needs of each client.

Since its establishment in 2010, Mixed Element® has been committed to providing high-end customers the high-quality, cost-effective products.

The company has expanded its product range from buffet display to Dinner ware, and the material include mahogany, white oak, stone, glass, stainless steel, PC, recycled materials, etc.

Each of our products from design to production, are all based on the perspective of visual aesthetics, also maintain standards of high precision and high quality. Through excellent reliability and visual aesthetics, create a wonderful and pleasant dining atmosphere for users, and bring unforgettable dining experience for users.

Food safety and quality control for us is top priority. Each of our products has reached the German food grade standard, and at the same time, each of our products has passed the strict quality inspection, especially the glass products and porcelain products are 100% hand-check in factory +100% hand-check in warehouse, thus giving our customers a double guarantee.

BelloLite is dedicated to manufacturing and distributing the most innovative, fashionable, and economical cordless lamps and lighting worldwide.

BelloLite provides a range of top-quality corded LED Table Lamps for residential and commercial purposes in over 30+ countries.

These table lamps illuminate with the unique elegance of specially designed rechargeable cordless LED modules, which lends exquisite beauty to the ambience.

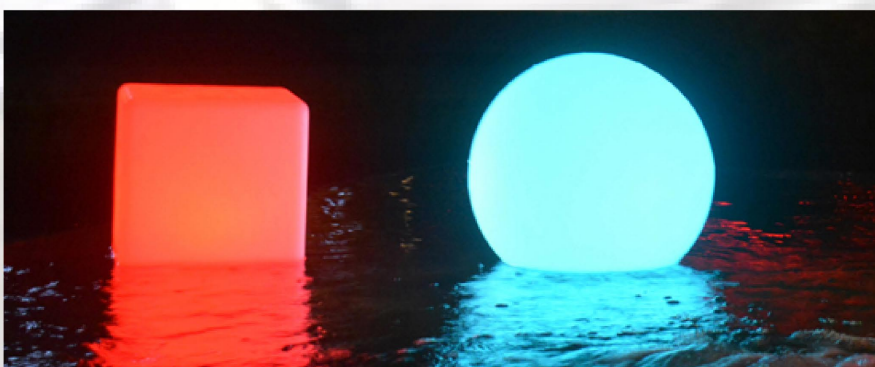

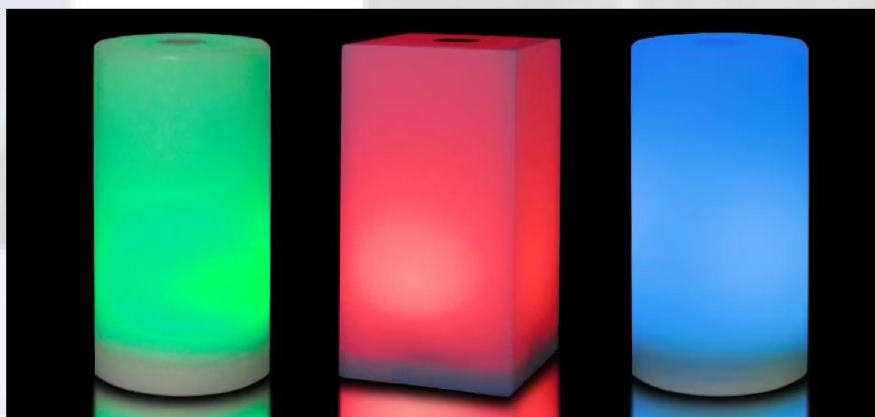

TABLE LAMP

Based in Quingey in France's Doubs region, Peugeot's factory employs 140 people and manufactures the world's best-known mills! The whole process is carried out onsite - from design, to technical development, to production.

The wood is turned, varnished or painted, while the mechanisms are machined and assembled with painstaking care, reflecting Peugeot's expertise in crafting wood and steel.

Food safety and quality control for us is top priority. Each of our products has reached the German food grade standard, and at the same time, each of our products has passed the strict quality inspection, especially the glass products and porcelain products are 100% hand-check in factory +100% hand-check in warehouse, thus giving our customers a double guarantee.

ACCESSORIES

COLE & MASON

ENGLAND

Established as a family business in the City of London by Julian Cowan, Cole & Mason was initially founded as a giftware company and quickly and successfully expanded into general hardware and housewares.

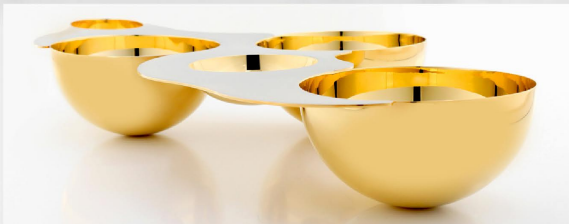

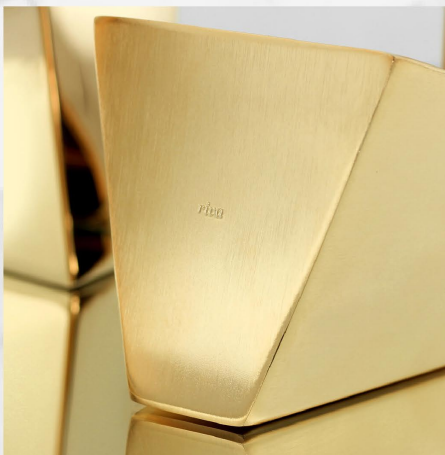

ACCESSORIES

From São Paulo to Tokyo, from apartments in Copacabana to yachts in France and the best shops in Dubai: Riva brings luxury, art and the incomparable shine of its metals to the world. Contemporary, innovative objects with a Brazilian essence, with impeccable materials and designed through partnerships with new and established talents.

Founded in 1988 by Rio de Janeiro industrial designer Rubens Simões, Riva was born from a gift that was to be given to the founder's mother, a beautiful silver cutlery holder.

helios®
GERMAN QUALITY · SINCE 1909

For many years now, our dishwasher-safe vacuum jugs have proven themselves reliable partners for professionals and have long become de rigueur in hospitals, nursing homes, canteens, hotels and catering operations. With our clear focus on the core competences of keeping beverages hot or cold, Helios today is one of the most highly-respected and best-known brands in the vacuum jug business area.

ACCESSORIES

The Bodum logo, featuring the word "bodum" in a white, lowercase, sans-serif font with a registered trademark symbol (®) to the upper right, set against a solid red rectangular background.

The BODUM® story begins in Copenhagen, Denmark, where Peter Bodum founded the company in 1944, and is still being written today as the Bodum Group remains a 100% family-owned business.

In BODUM®'s early years, Peter Bodum was importing glassware to Denmark, when he first became aware of vacuum coffee makers. Impressed by the taste of the coffee, he set out to improve the design and make a product that was affordable for everybody, thus laying the foundations for BODUM®'s success. In the early 1950s, he produced MOCCA, BODUM®'s first vacuum coffee maker, before releasing the SANTOS vacuum coffee maker in 1958.

SANTOS was the product that placed BODUM® firmly on the international stage, where it was acclaimed for its unique design and went on to become one of the most important coffee makers worldwide throughout the 1950s, 1960s, and 1970s.

Glass Style

WALID ONSY
